

AVIPLAN 3.0

With renowned marketleading technology at its core, AviPLAN delivers a unique feature-set tailored to meet the specific challenges faced by today's airside planning, design and operations professionals.

Experience next level productivity with AviPLAN 3.0.

New! Compatibility | Autodesk AutoCAD® 2021 and Civil 3D® 2021, plus BricsCAD V20

New! Group Path | Analyze movements with groups of airplanes by following drawing entities

New! Conflict Detection (Group Path) | Detect and analyze conflicts between airplanes and pavement edges, shoulders and apron limits

New! MultiDock (Stand) | Dock a boarding bridge to multiple airplane doors or a door to multiple bridges, all in a single session

New! Jet blast variants | Visualize single engine breakaway jet blast, where supported

New! Clearance box variants | Apply offset, tapered and boxed clearance boxes

New! Settings | Save, apply and share defined settings as Settings Templates

New! User Subscription Licenses | Cloud licensing with a unique login and password per user

Library | New and updated aircraft, vehicles and boarding bridges from Airbus, Boeing, Bombardier, Embraer, McDonnell Douglas, Adelte and more

And much more!
