About Us

K & S Industries is a locally owned and operated business, run by the Kyriakou and Sfetcopoulos families of Shepparton. With interests that started in orcharding over 50 years ago we have now branched out and diversified the business including;

Sawmills – KSI Sawmills is a South Australian based arm of the business which now can guarantee a steady supply of timber to K&S Pallets. We have grown this business to domestic markets and now are a major supplier of timber in South Australia, while also supplying in Victoria, New South Wales and Western Australia.

The mill started in 1934 and was originally known as Nurioopta Sawmills. K&S Industries purchased the mill in 2008 and in 2009 the mill was up-graded with a state of the art Cooper Scragmill from the USA. The mill now has the capacity to produce in excess of 14,000 cubic meters of Australian Green Case Pine timber which is sourced from Australian harvest plantation.

USED PALLETS

K & S Pallets have a reputation of providing quality service and products to our customers. This is achieved by having a "can do" attitude, a comprehensive range of pallets and with our technology and automaton. We supply and manufacture new timber pallets, pine pallets, used pallets, pallet repairs and are currently manufacturing in excess of 1500 pallets daily.

NEW PALLETS

We supply and manufacture new timber pallets and pine pallets, currently in excess of 1500 pallets per day.

Pallets – K&S pallets is the only LOSCAM pallet depot in the Shepparton area. Currently we are the only LOSCAM sub-contract pallet repair facility in Victoria and have the capacity to manufacture new pallets for LOSCAM. We have been associated with LOSCAM for the past 8 years, and at present, we are supplying LOSCAM in excess of 140,000 new pallets per year.

Pallets are an integral part of the supply chain, facilitating the transporting, storage and distribution of both raw materials and completed products through to the end user.

Pallets are ideal for road transport, container shipping, and warehouse storage.

Wooden pallets have many advantages. They are a cheap cost effective pallet if you are storing goods inside a warehouse. You are able to custom make, repair, and even resell them, and export

Concluding Statement

K & S Industries is looking forward to establishing our long term business relationship with QLS Group and are confident that we will be able to fulfil this task and any other future requirements that QLS Group may have.

We are committed to meeting the needs of your company and are prepared to be flexible within some areas to meet your specified requirements.

Yours Faithfully
Victor Kyriakou Director
K&S Industries P/L

Capability Statement

K&S Pallets Modern automated pallet manufacturing equipment, along with a dedicated and experienced team can manage any project large or small. We can design and build the pallets that best fit your business operation, saving you time and money.
