Each time you stumble, get up and try again, there lies the glory

Cada vez que tropieces, levántate y continúa intentándolo, ahí radica la gloria

Chaque fois que vous trebuchez, relevez-vous, continuez d'essayer : c'est la cle de la reussite

Jedes Mal wenn du stolperst, steh auf und versuche es erneut. Das ist die Grundlage des wahren Ruhms.

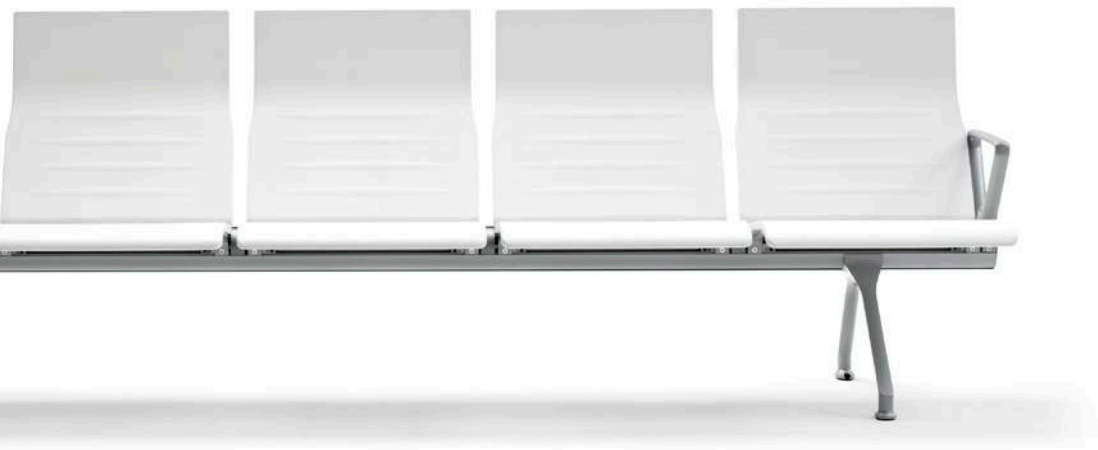

The shape of the seat surface and the backrest at **PASSPORT** adapts to the shape of human body ensuring a comfortable and healthy position, with the possibility of special seats for disabled users.

PASSPORT is a modular bench system for passenger terminals and high traffic areas with modern architecture.

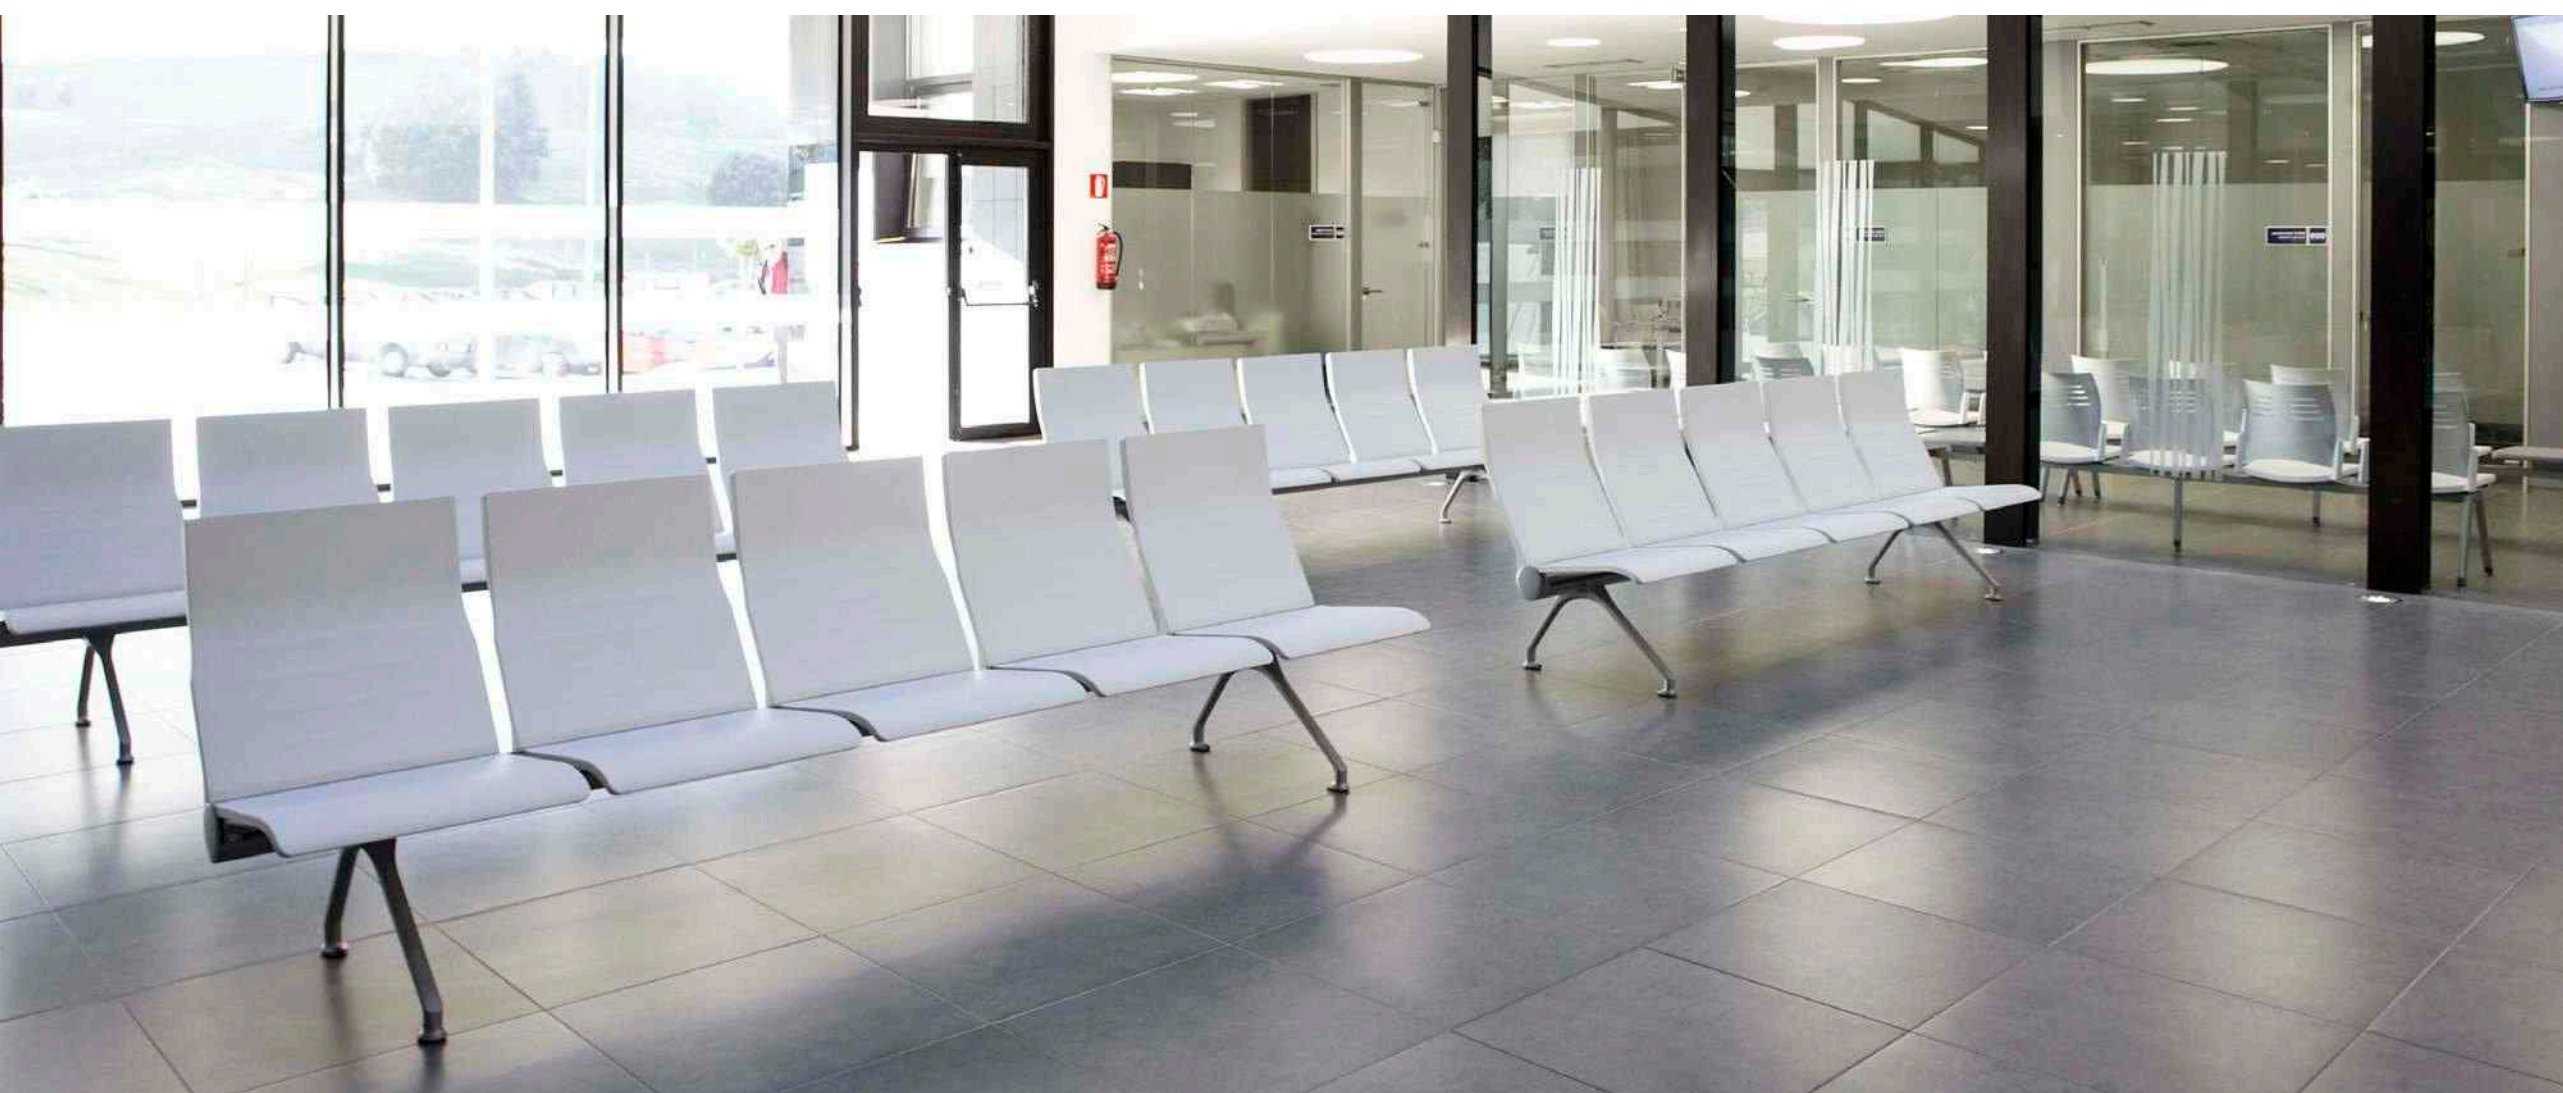

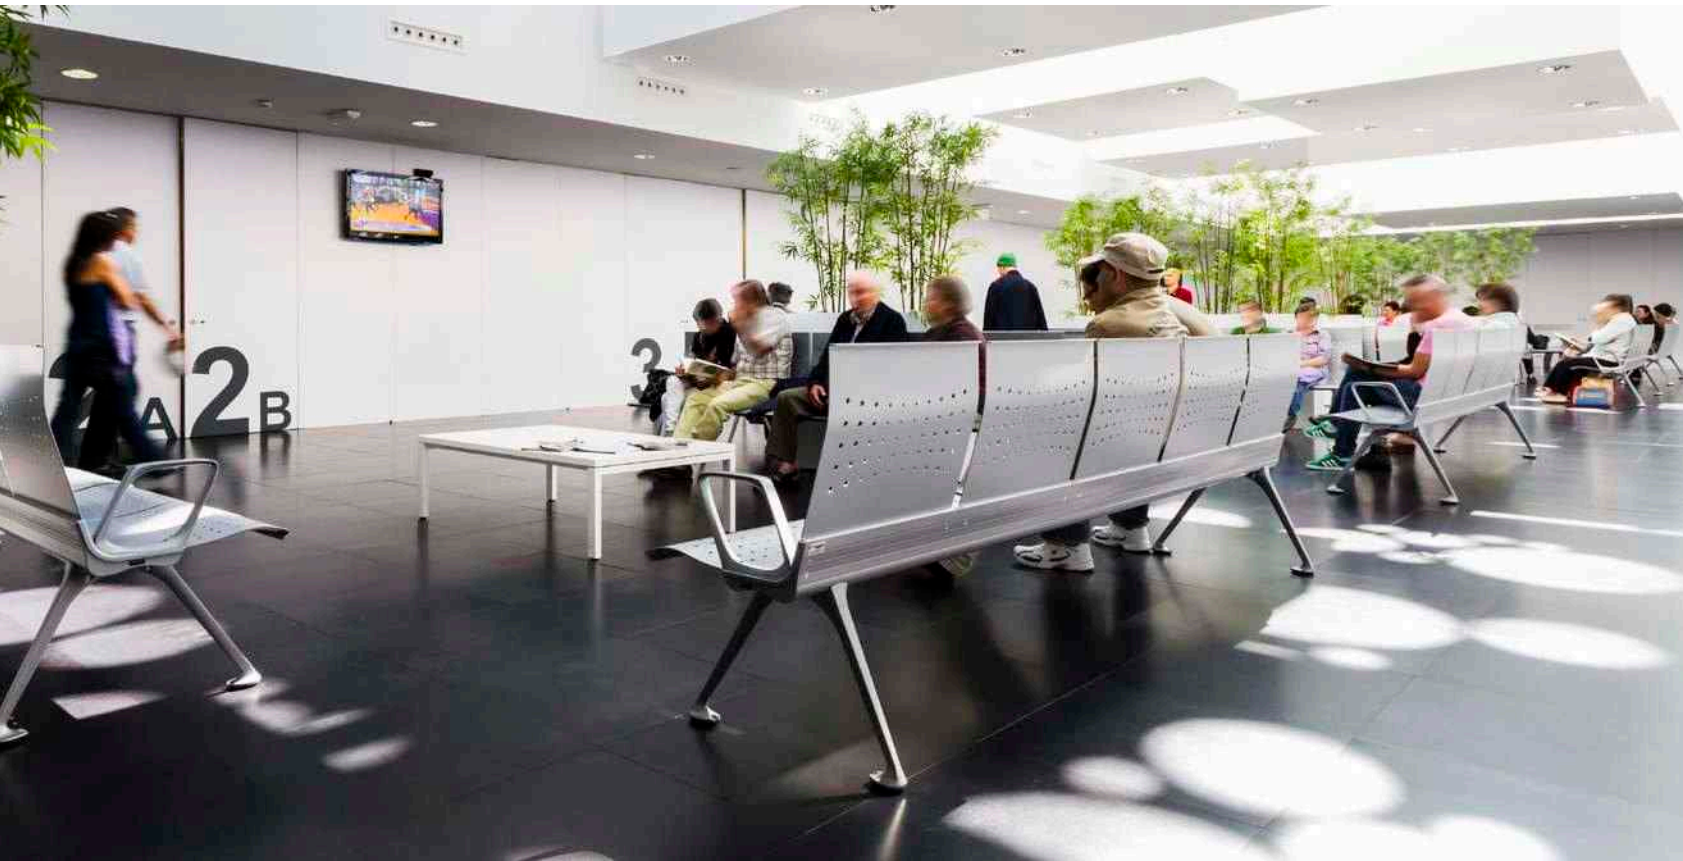

AVANT is a modular bench system with a soft lines design and a great quality look, providing a contemporary, fresh and functional image.

With or without arms in any seat, side tables and finished in natural wood, steel or integral polyurethane. The benches can be easily fixed to the ground.

Design and engineering are inspired by natural architecture to create **TRANSIT**. Combination of beauty, strength and ergonomics define this personal bench seating.

bewegen

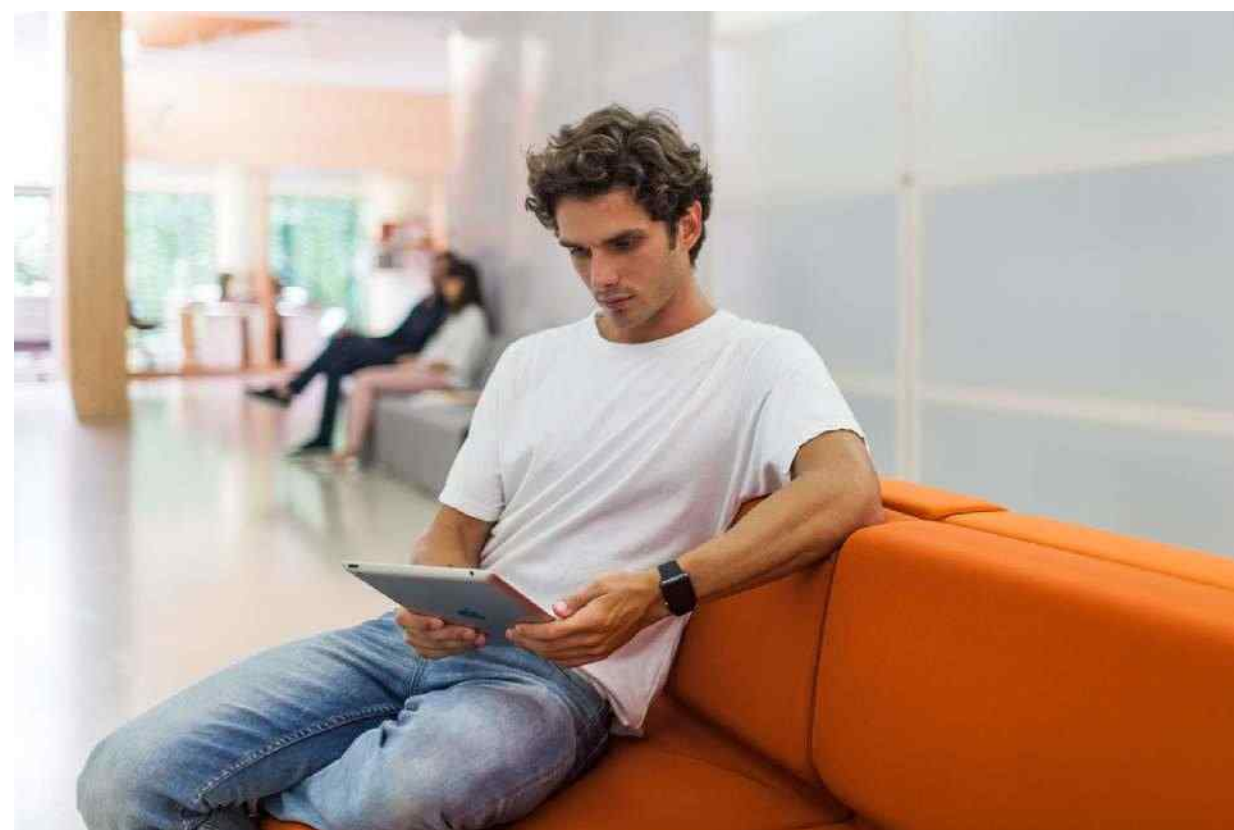

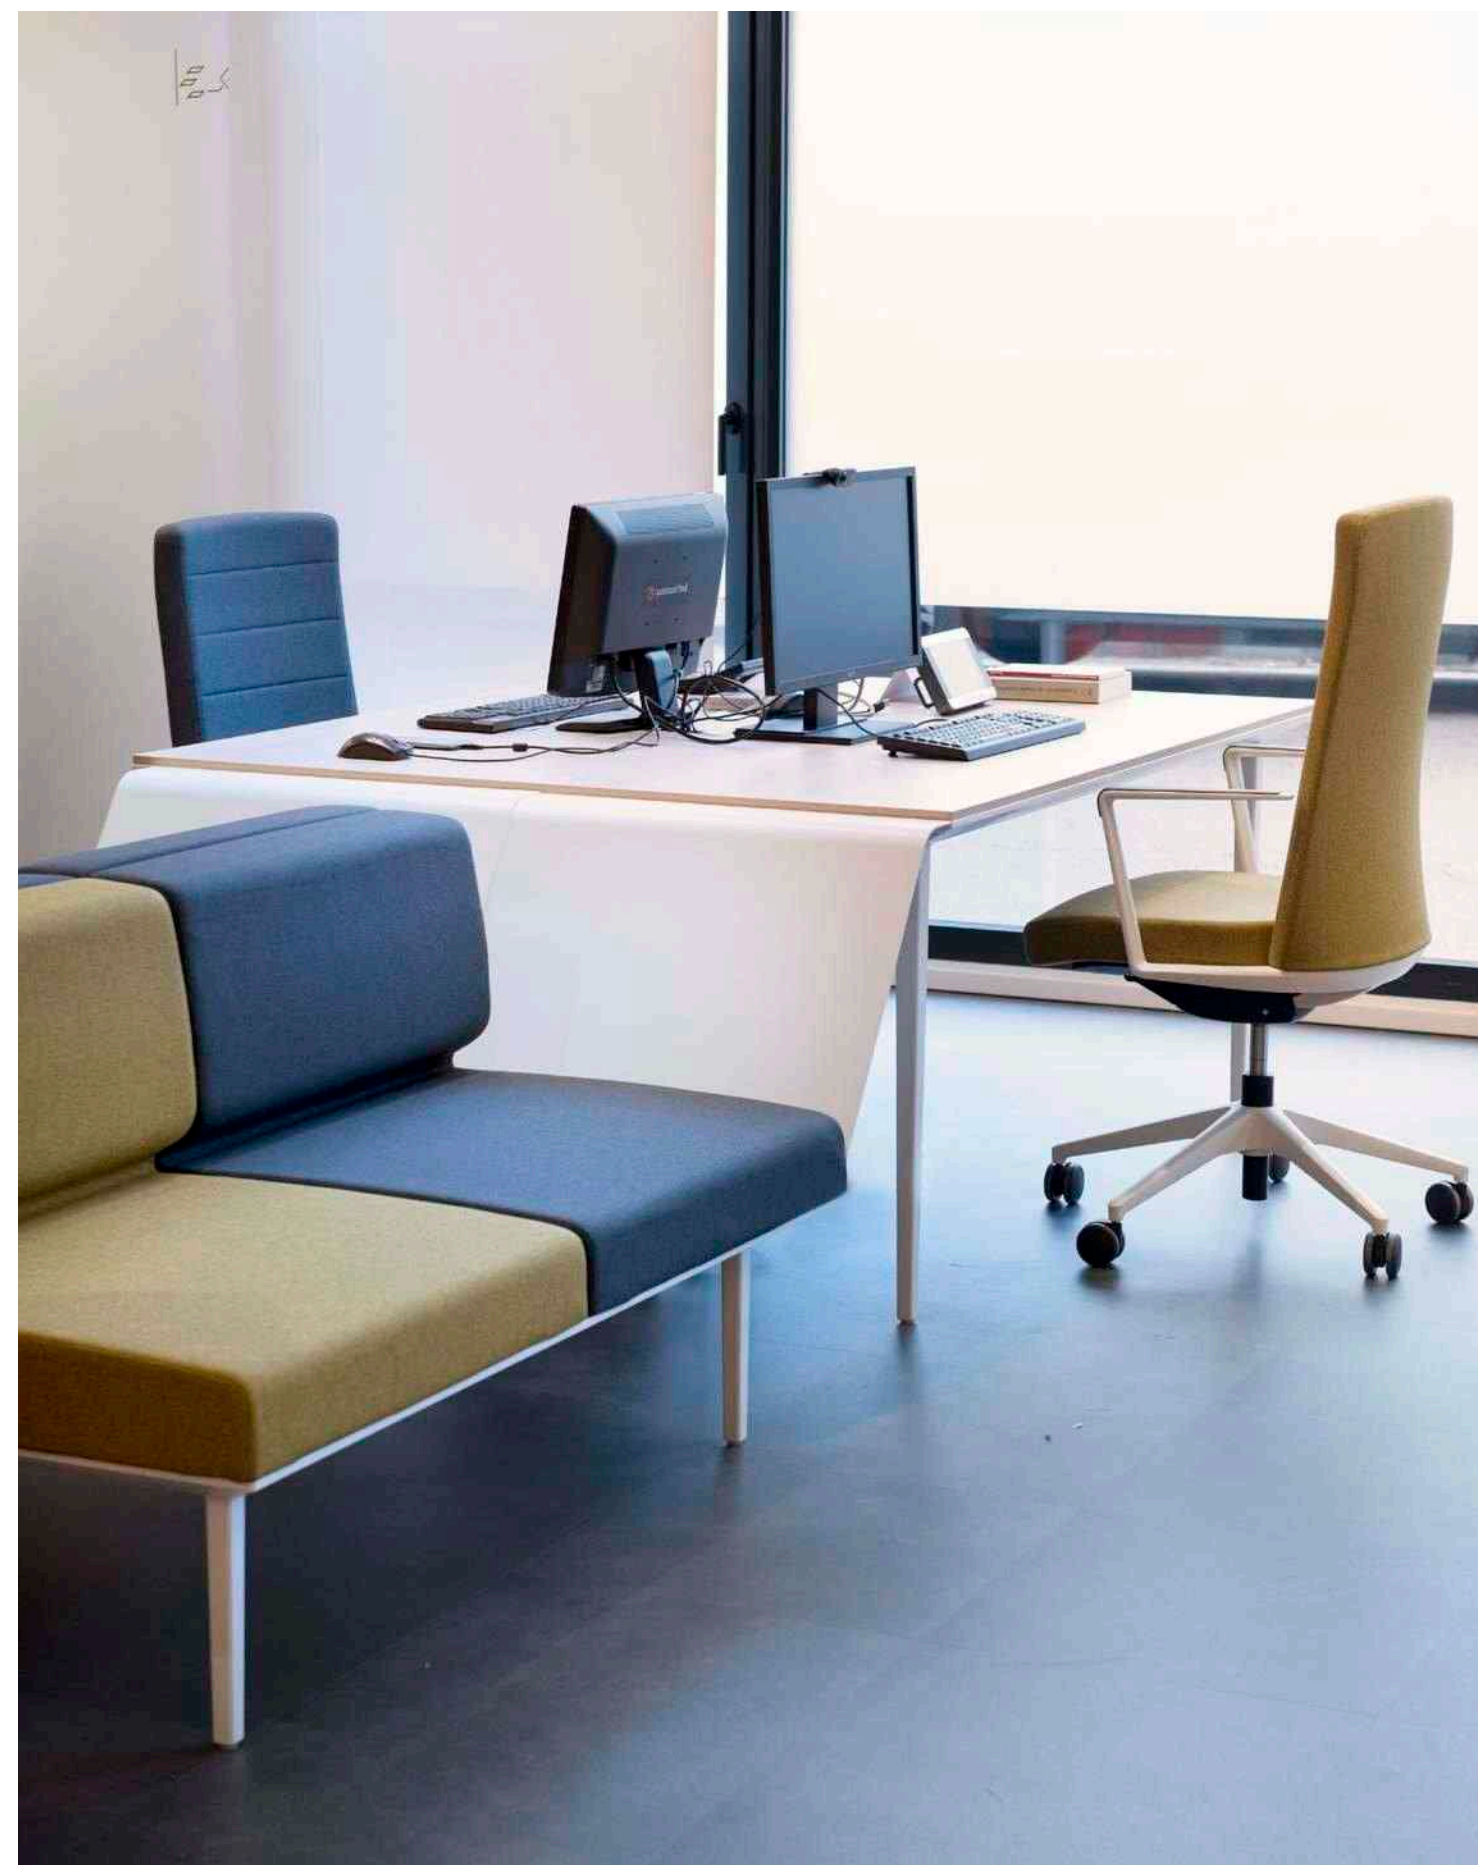

BEST of NEOCON
GOLD AWARD
Lounge Furniture Collections

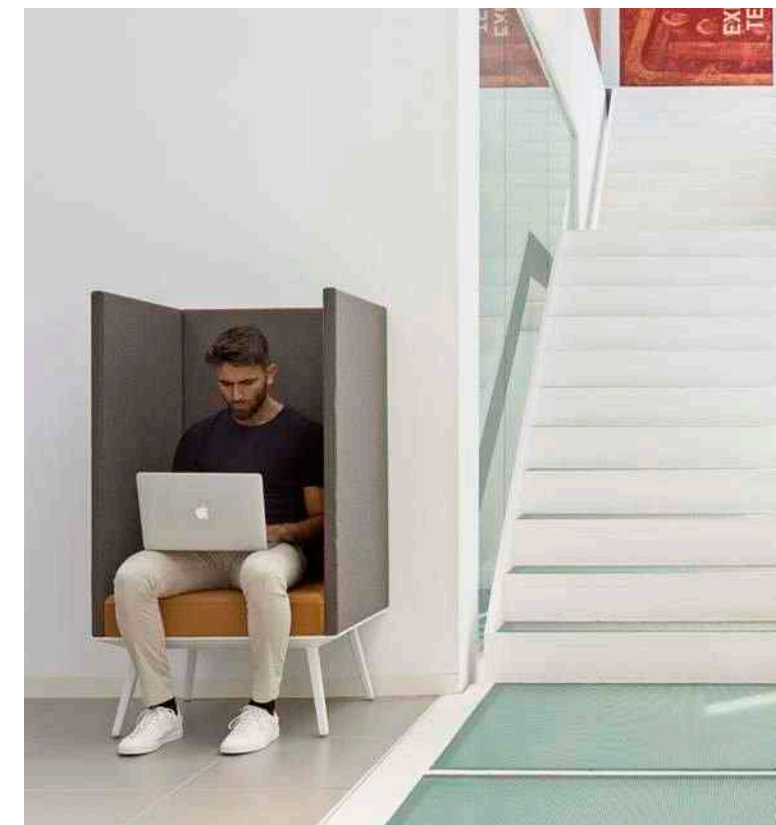

LONGO received American recognition when it won the Gold prize for "The Best of NeoCon" in the "Lounge Furniture Collections" category. A comprehensive range of sofas, armchairs, modular structures, filing systems and functional seats that are renowned for their excellent design and the productive solutions they provide.

LONGO is a modular system consisting of sofas, operative and managerial desks, with storage solutions (cabinets, libraries), accessories and sound absorbing panels which incorporate decorative accessories and items that inspire a cheerful environment.

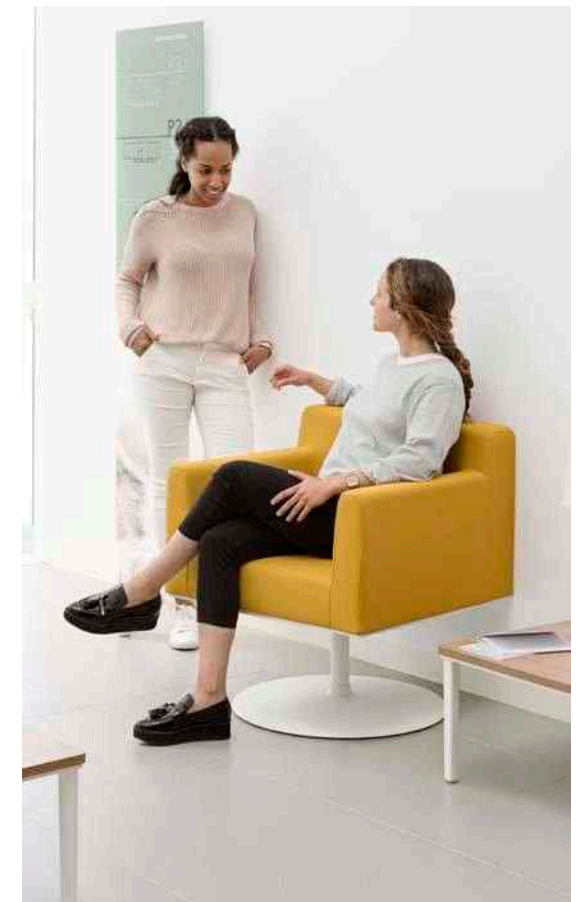

Sometimes daily work becomes routine, pressure blocks our creativity which we wish to avoid so we need somewhere to escape to , to disconnect, relax, breathe deeply and help us restore the optimal level of performance. And what if we told you that this was all possible? and if we told you that it already exists and it is called Longo?
Now you don't have to leave the office to disconnect....

LONGO enables more friendly, open and relaxed environments, where formal structures and dynamic spaces thrive to create a harmonious environment.

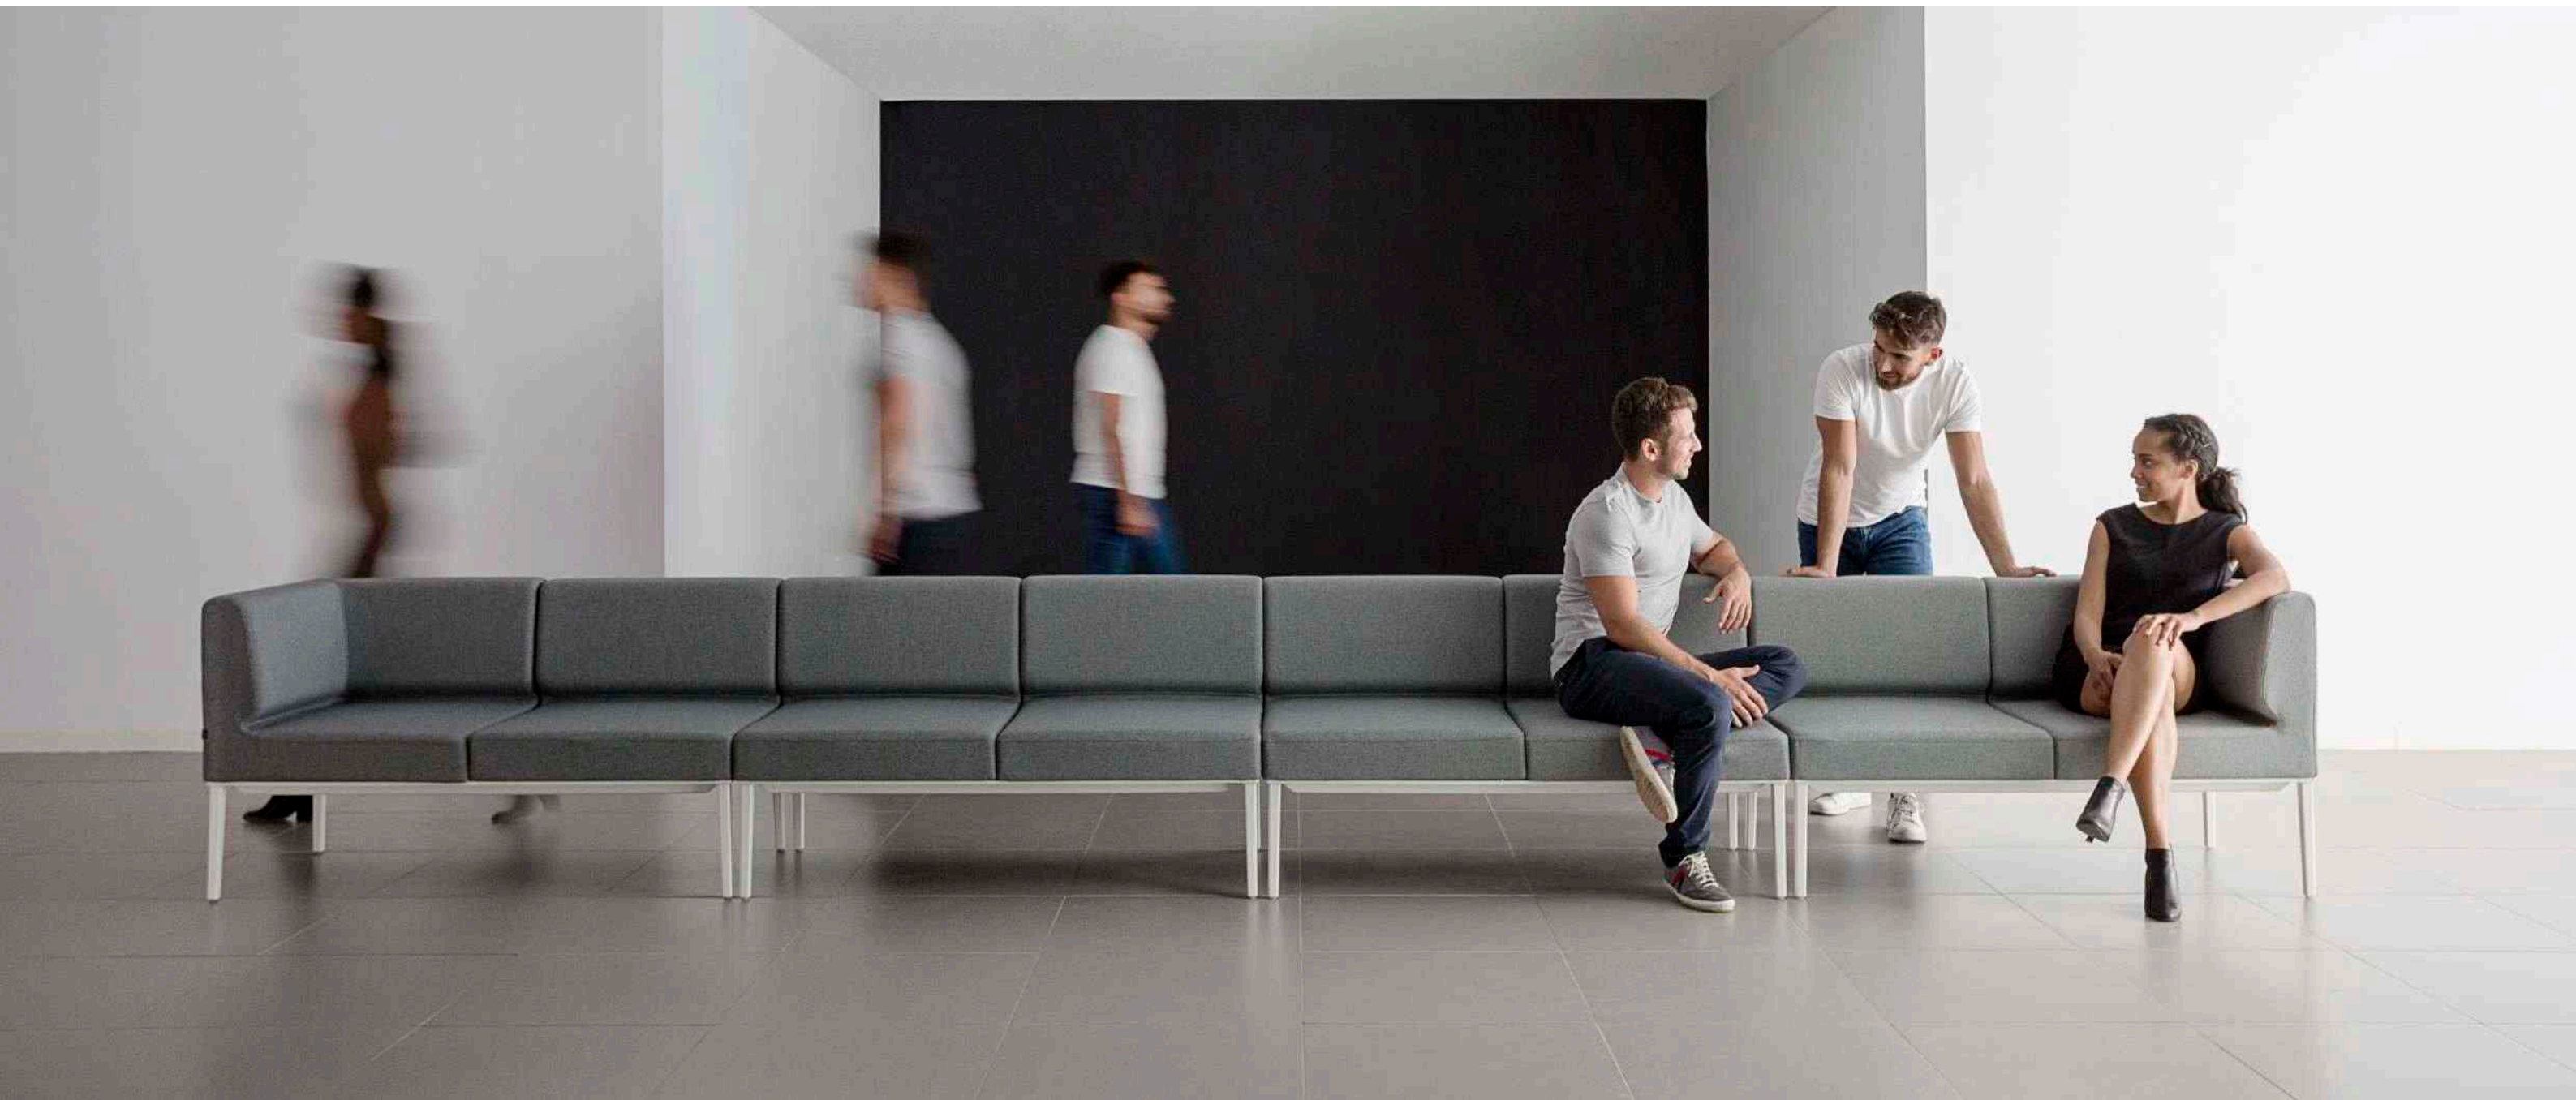

MODULES INDIVIDUALS

LONGO is a system capable of taking your work level to the desired point. Longo fuses soft seating with the office using a platform from a robust structure but with a light aspect, which acts as a link to connect and branch numerous modules in a space.

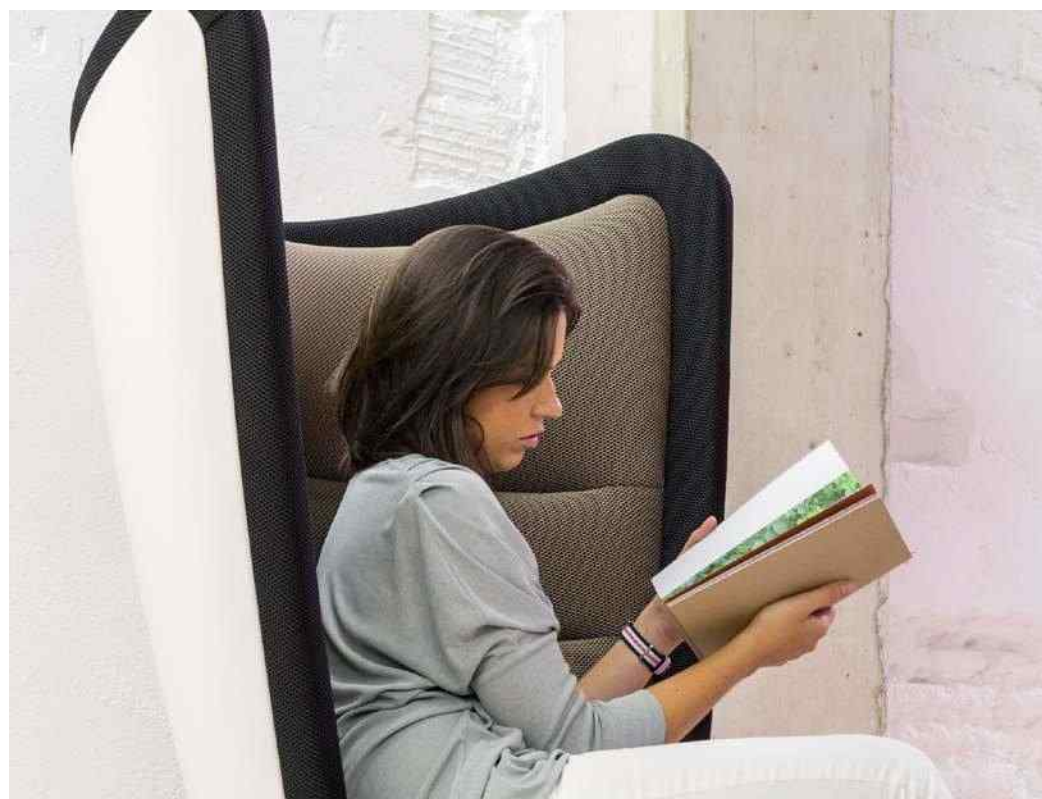

BADMINTON

by ITEMdesignworks

BADMINTON is the new active, dynamic and daring armchair from actiu, intended as an iconic element within the office. Thanks to its dynamic and open conception, it enables conversation, reading and the use of electronic devices without falling into a relaxed state which impedes your concentration.

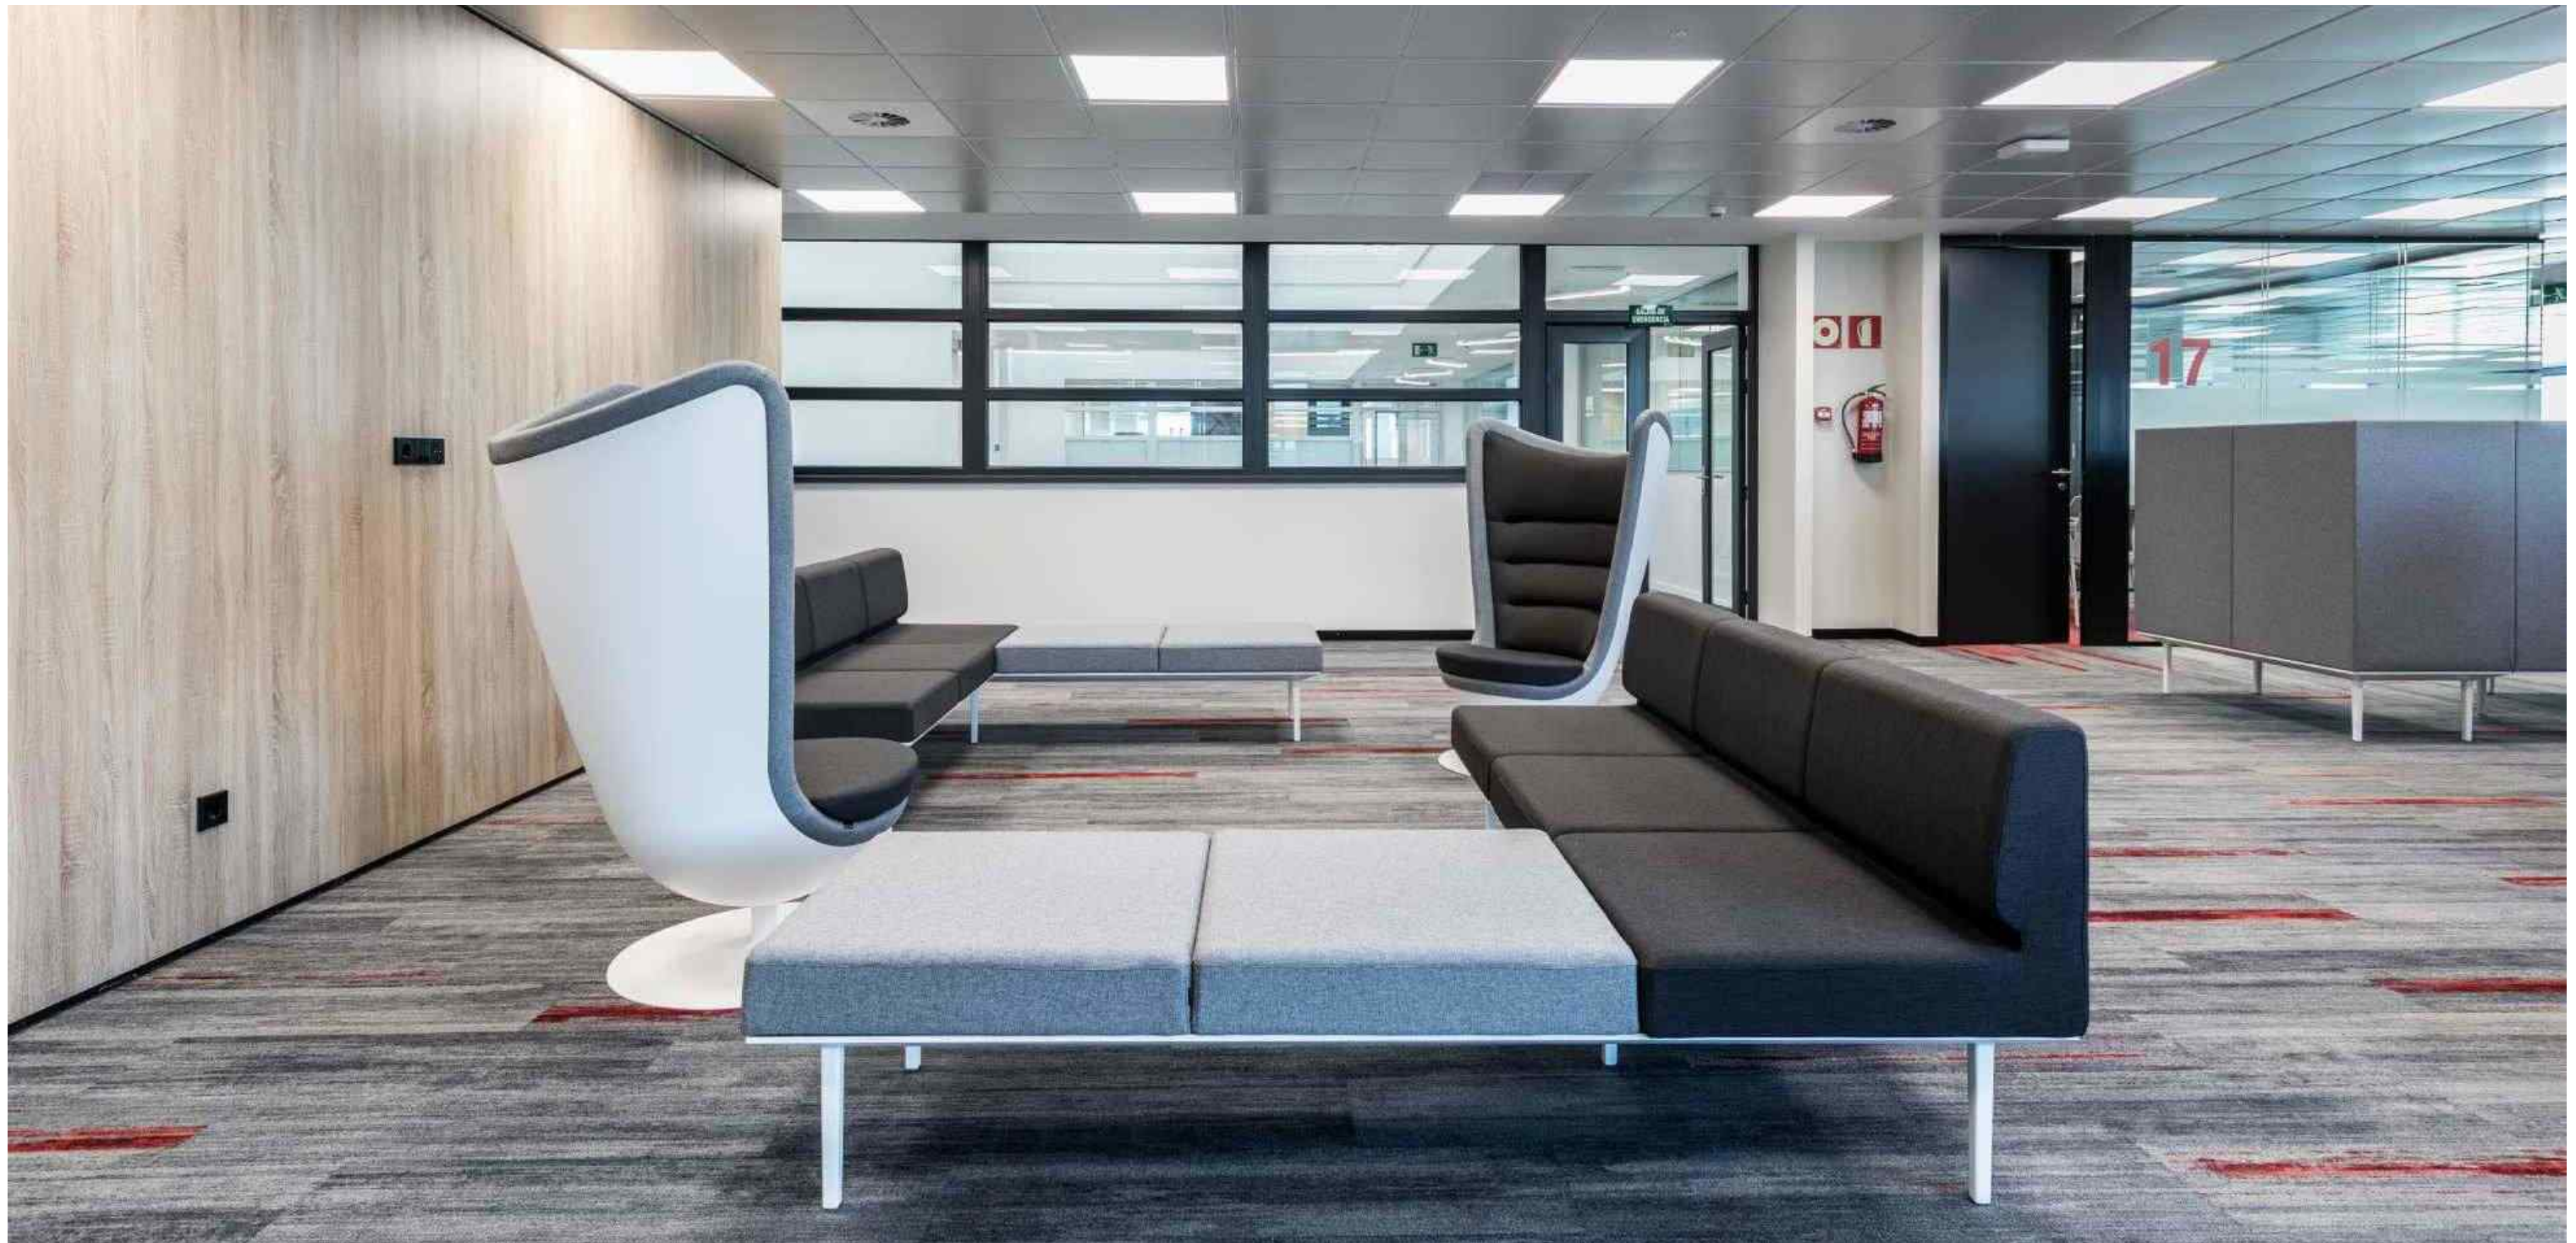

BADMINTON also has a wide range of possibilities in its colours, textures and finishes, thanks to being able to select both the housing finish as well as the two interior.

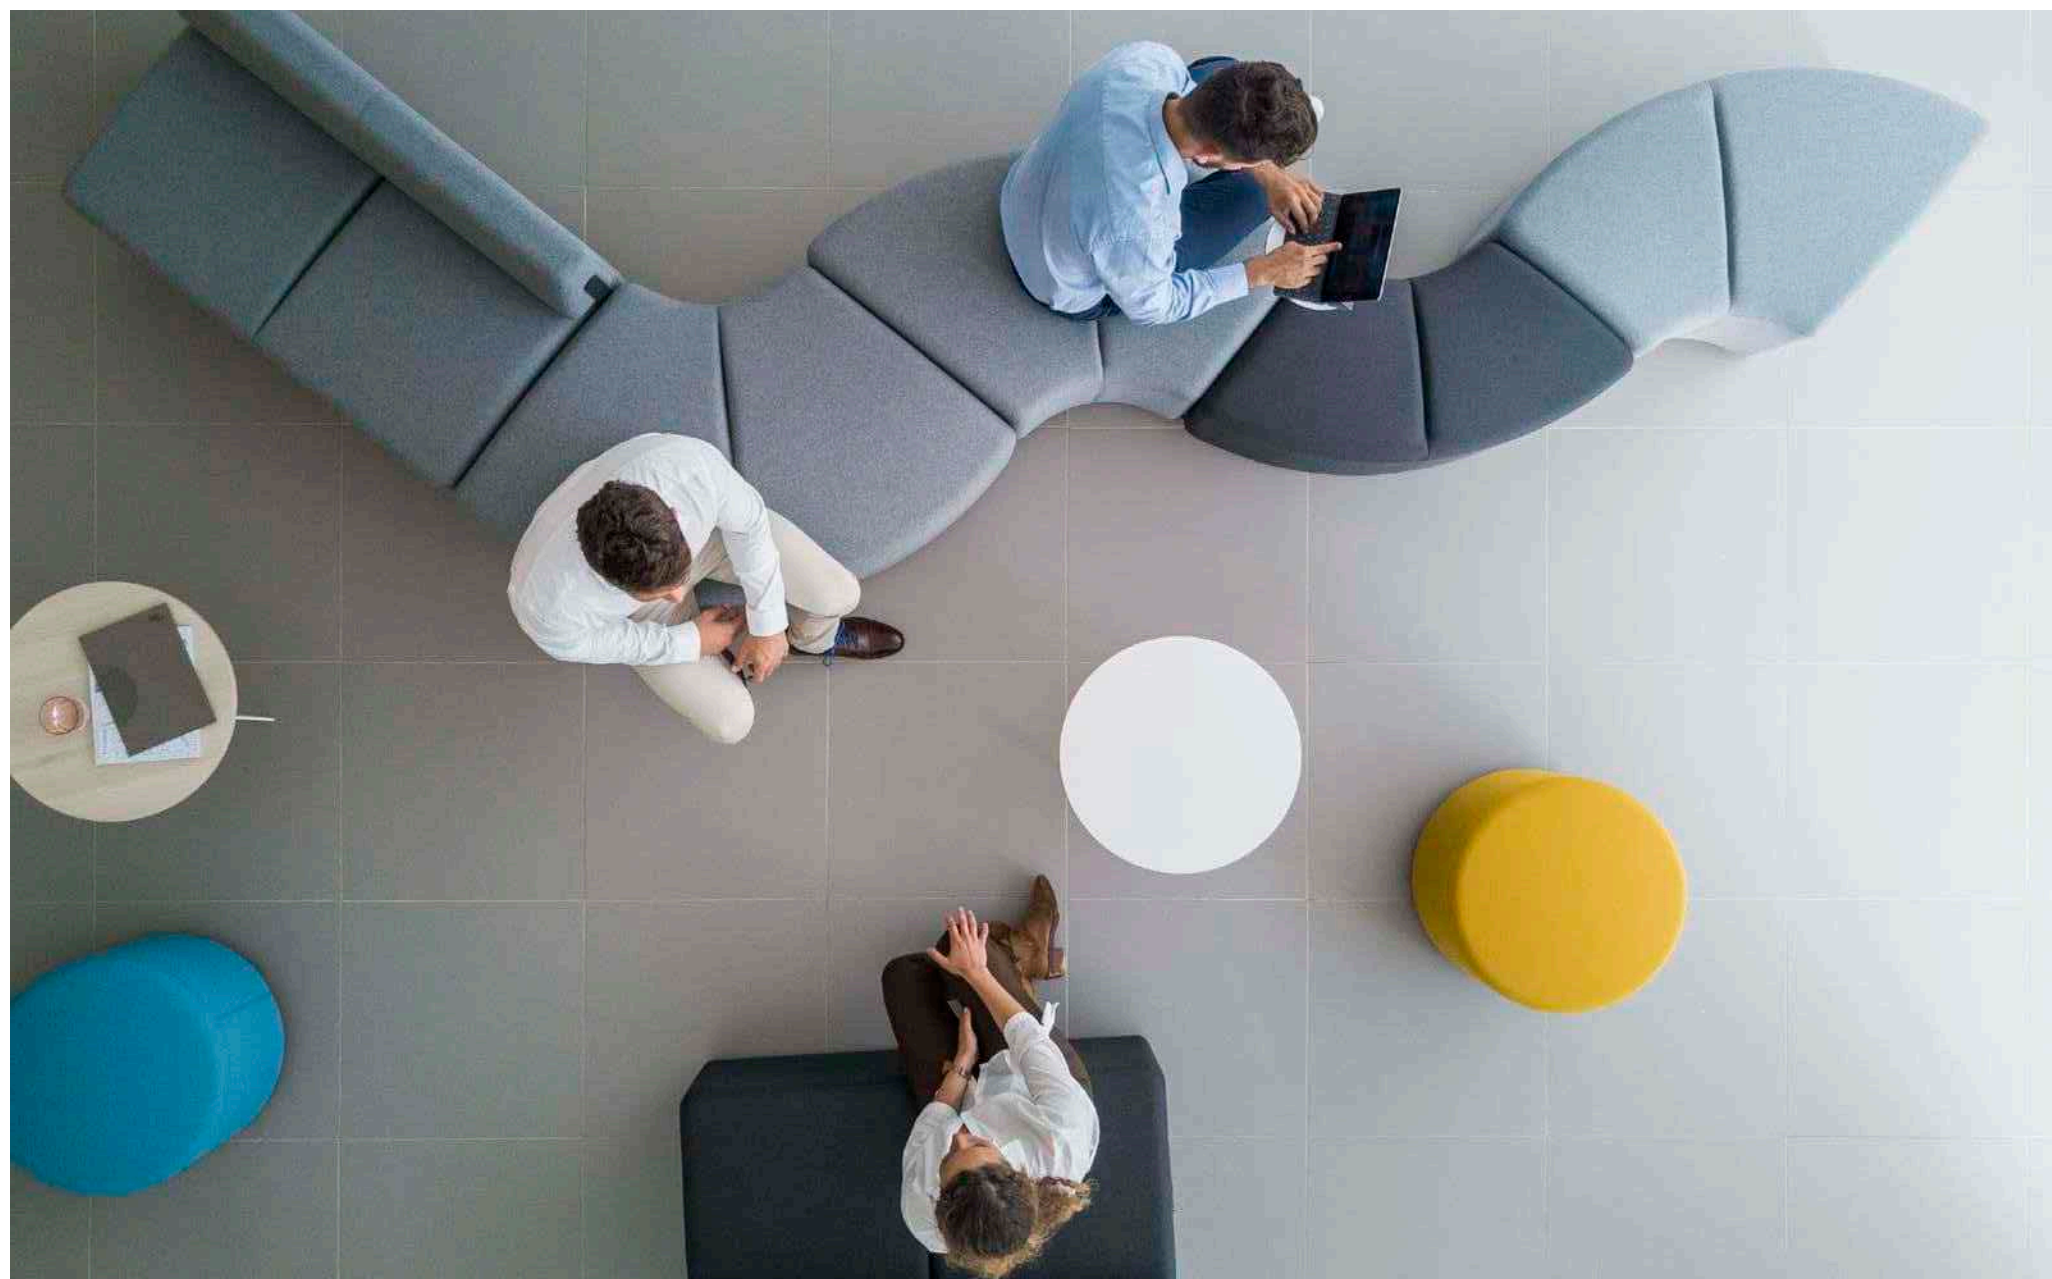

BADMINTON also has a wide range of possibilities in its colours, textures and finishes, thanks to being able to select both the housing finish as well as the two interior.

BEND was born to bring dynamism and informality to the work spaces and collectives of today. It is an elastic, modular and organic soft seating range inspired by nature. Just like undulating water that navigates through the terrain, Bend draws spaces by generating different resting areas that adapt to all users and requirements. Thanks to its easy integration into the furniture, the Bend is equipped with an accessory kit.

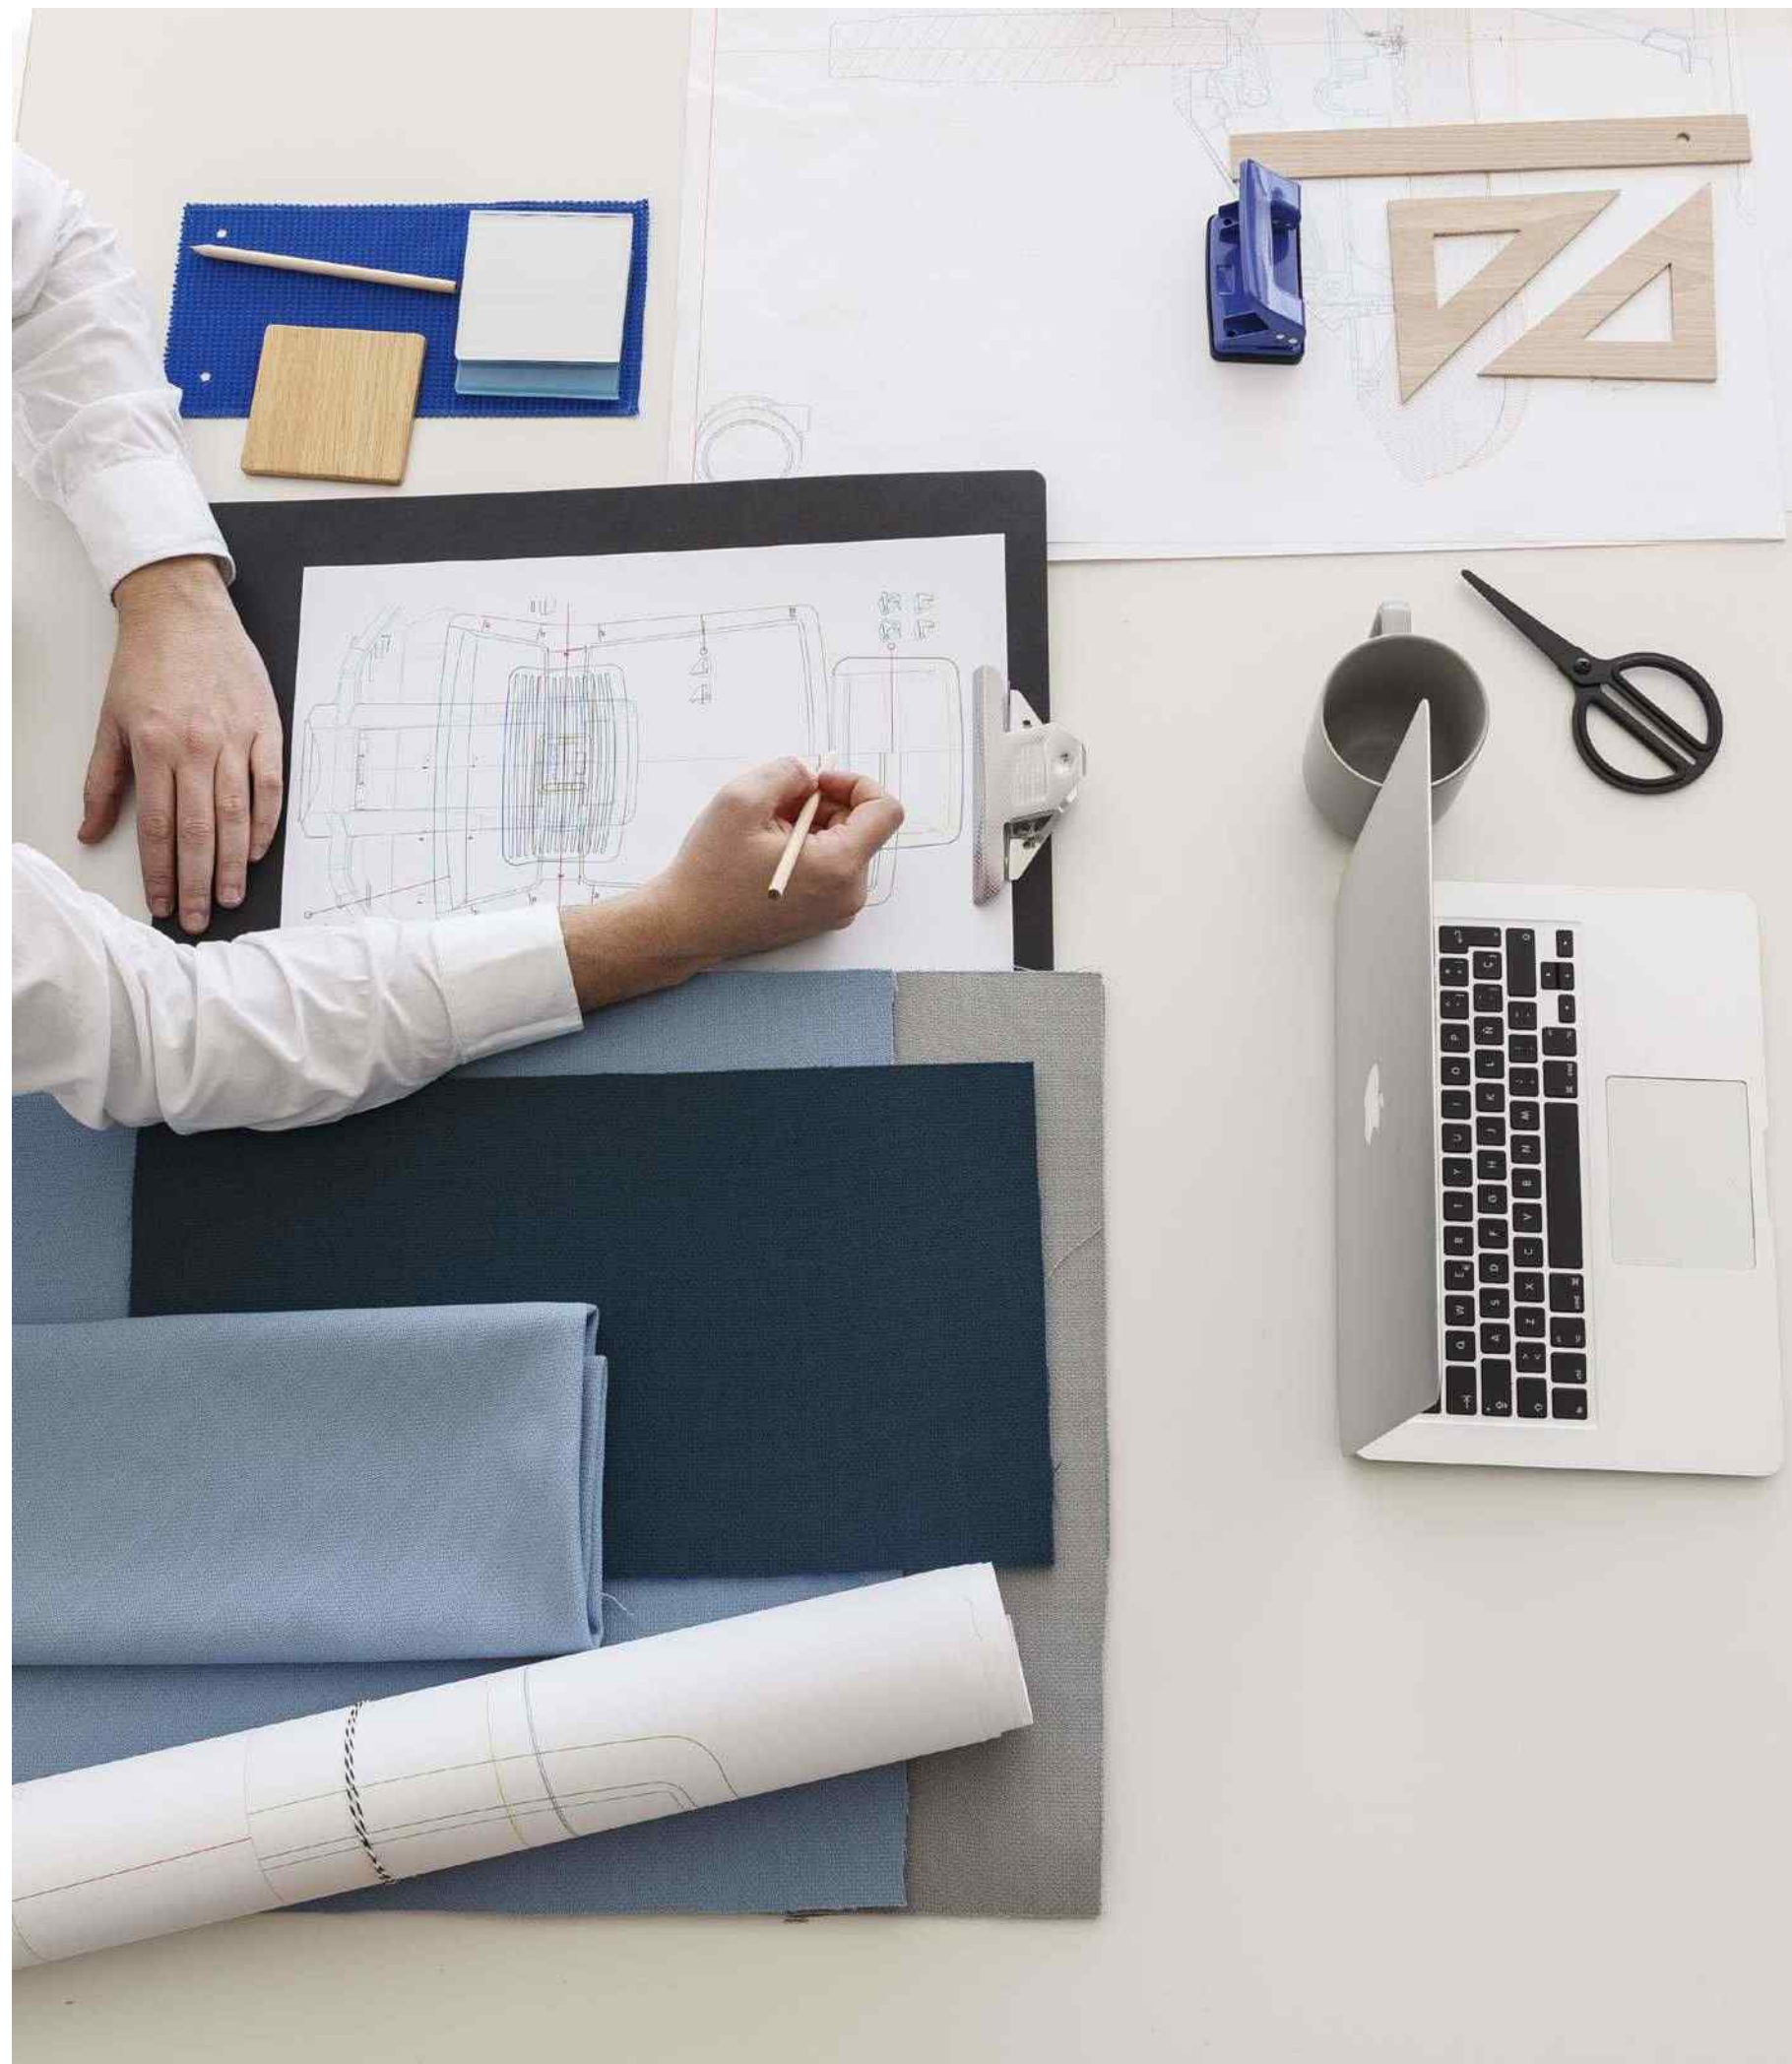

The different depths and forms of its seats are precisely what generates this organic movement that enables Bend to never seem like a linear and uniform piece. The range was designed with a desire for open configuration and an almost infinite capacity to be customised, thus providing the user with simplicity, comfort and varied options for use.

**DYNAMISM AND
INFORMALITY TO
THE WORK SPACES
AND COLLECTIVES**

Following the pattern established by Actiu soft seating ranges, Bend seeks to create unique and inspiring spaces for informal meetings, taking short breaks or making phone calls, all within a collection that draws inspiration from nature.

ACTIU TECHNOLOGY PARK
LEED® PLATINUM certified by USGBC
Leadership in Energy & Environmental Design
LEED® Gold certified 2011 • LEED® Platinum certified 2017

This recognition of the American Green Building shows how Actiu's sustainable policy supports the efficient use of natural resources that is paramount within our construction and design.

With an unwavering commitment towards the preservation of the environment, ACTIU is proudly the first European Industrial Company to receive this excellent certificate. The success provided by this award has become a main motivating catalyst for our formidable commitment towards sustainability, innovation and the territory- a tripartite of values that deeply features our company.

Total surface: 200,000 m²
Green areas: 130,000 m²
Three production plants: 40,000 m²
Logistics Centre: 18,000 m²
Three floors Corporate HQ: 6,000 m²
Meeting points and indoor gardens: 2,000 m²
Cisterns for 12,000 m³ of rainfall water.
Solar plant: 8,000,000 kWh per year
Prevents 8,300 Tons of CO₂ emissions per year

50 ANIVERSARY

TRIP TO
THE NEXT
50 YEARS

DAY 1

A TRANSFORMER TRIP

HIGH-FLYING EXPERIENCE

The first day was completed with a series of **talks on millennial culture, technology and creative leadership**. The lecture was presented by Raquel Aullón, after which three internationally prestigious keynote speakers addressed the keys to the **issues that are currently impacting** business culture.

During this day, Actiu surprised the audience with **T4 Stories**, four short films from young Alicante producers in an innovative vertical format like a mobile phone screen.

DAY 1
A TRIBUTE TO ORIGINS

CONTEMPORARY
MEDITERRANEAN

As a grand finale to this first day the **19th Century building known as “La Venta Flores”**, located in the Actiu Technology Park was inaugurated. It is an old farmhouse which had always been a meeting point for travelers and merchants. Actiu has renovated this space, while respecting its essence and emphasising commitment to the local area, design and architecture, to transform it into a new space to host exhibitions, conferences and training activities.

Its original layout was designed to encourage meeting up: with guest rooms to accommodate travellers, a large kitchen and dining room on the ground floor, and a courtyard, drinking trough and outbuildings for animals. The architecture is typically Mediterranean, giving importance to light, water and to the communal areas; elements that inspired the Technology Park and which were respected when it was time convert this space.

DAY 2 GALA DINNER

LIGHT & SOUND EXPLOSION

On the second day, the 28th of June, a **gala dinner** was held in the outdoor gardens at the Actiu Technology Park. This dinner tried to offer guests a Mediterranean experience of light, colour and aromas, chords and gunpowder

Each day of the 50th anniversary celebrations had as **their objective the consolidation of human relationships for a company that has built itself on the idea on the importance of people**. Vicent Berbegal, President of the company, was host over these few days, accompanied by his daughters Carmen, Laura and Soledat Berbegal, along with his son Vincent junior, who represented the **second generation of the company**.

DAY 3
ACTIU TEAM DINNER

The celebration ended with a dinner, on 29th of June, which the **workers who are part of this family** company as well as company collaborators were invited to
