

THE AIR TRAFFIC MANAGEMENT

community is working together to foster a more efficient ATM environment which supports improved safety, performance, sustainability, and reliability of air navigation. Egis brings leading and independent expertise to the exciting new developments and challenges of the ATM industry.

EGIS IS A LEADING PROVIDER OF ATM EXPERTISE,

understanding the challenges of the industry from a 360 degree perspective. We work with the entire aviation community to help them make the right choices. **We help improve the industry's performance and shape tomorrow's ATM.**

COMPREHENSIVE SECTOR EXPERTISE

At all levels:
infrastructure, equipment, systems, processes, assets, and people

All ATM challenges:
technical, operational, commercial, development, financial, and regulatory

We are aviation experts with a unique width and depth of expertise across 4 markets: airports, ATM, institutions and aircraft

OUR KEY DIFFERENTIATING FACTORS

We actively contribute to ATM programmes, developments – SESAR, Clean Sky, FABs – and standardisation works – ACAS, ADS-B, GNSS, A-SMGCS. **We help you transition towards the latest technology and concepts.**

With extensive airport capabilities and experience of operating 17 international airports, **we know how to bridge the gap between air and ground, airside and airspace.**

Our team includes internationally recognised consultants, engineers, human factors and technology specialists, economists, safety and security, and operational experts. **We can help you on a broad range of challenging issues.**

We provide independent expertise to ATM stakeholders, delivering solutions based on their needs through **a customer-centric approach.**

We are used to working on complex multi-stakeholders projects. **We ensure a successful delivery of your project, supporting consensus between stakeholders.**

WE'VE BEEN WORKING WITH MAJOR ATM ORGANISATIONS, AT NATIONAL AND REGIONAL LEVEL FOR OVER

40
YEARS

A WORLDWIDE PRESENCE AND LOCAL UNDERSTANDING WITH OFFICES IN

30+
COUNTRIES AROUND THE GLOBE

We deliver significant improvements and meaningful results for our customers in terms of

CAPACITY, PERFORMANCE, RESILIENCE, QUALITY OF SERVICE, AND ENVIRONMENTAL IMPACT

Egis in 2016

OVER
€1 BILLION

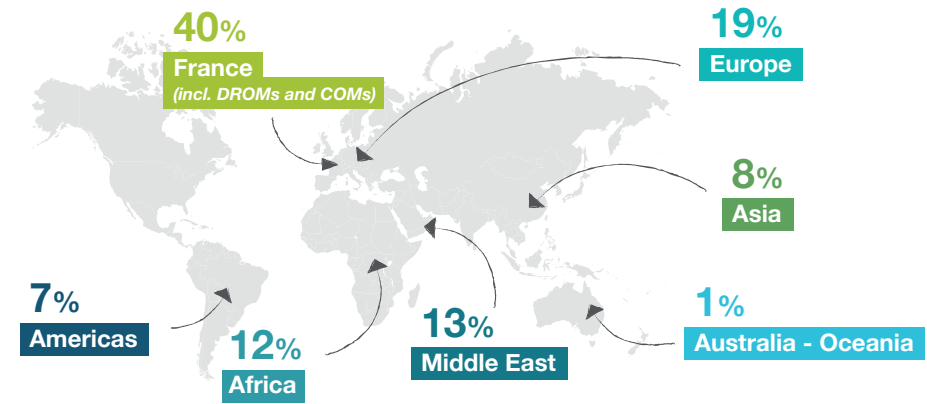

TURNOVER

Egis is an international group providing consultancy, engineering, project structuring, turnkey systems and operations across many sectors. Our activities stretch across all transportation modes, urban development, building, industry, water, environment and energy.

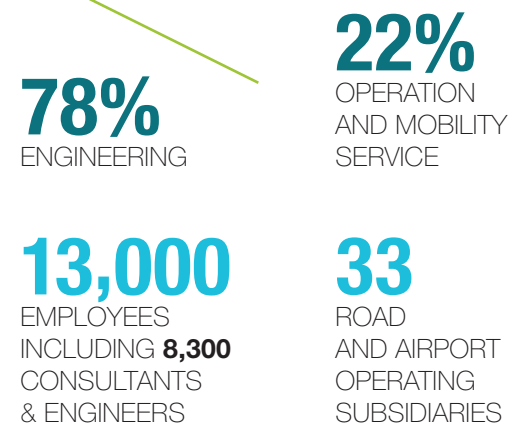

Our employees all share the same fundamental set of values which make our Group a company which is increasingly responsible, creative and people-first. Egis takes a proactive stance on innovation, helping its clients to meet socioeconomic, energy related and environmental challenges wherever the company operates.

Egis is 75%-owned by the French Caisse des Dépôts and 25%-owned by Iosis Partenaires (a "partner" executive and employee shareholding).

Breakdown by geographical zone

Breakdown by activity

PROJECT SHOWCASE

Detailed study and implementation roadmap to harmonise ATM provision across 6 States

Cooperation Council for the Arab States of the Gulf (GCC)

Comprehensive technical assistance to the definition, integration, validation and deployment of ATC systems, including Human Factors and safety assurance

DGAC/DSNA, France

Definition of green GNSS-based procedures for rotorcraft

Clean Sky JU

Independent review of Toronto Airspace to mitigate aircraft noise issues

Nav Canada

Safety assessment of the complete surveillance chain

Skyguide, Switzerland

2015-2030 ANS masterplan

Civil Aviation Authority, Kenya

R&D around RPAS surveillance solutions

In cooperation with Airborne Concept

Safety case for integrating RPAS within airspace

European ANSP

Study on cyber-security for the future SWIM-enabled European ATM System

SESAR JU

Airport airside and ATM simulation studies to assess future infrastructure developments

Sao Paulo Viracopos Airport, Brazil

Safety assurance project for nationwide CNS/ATM system modernisation programme

Aerohai, Thailand

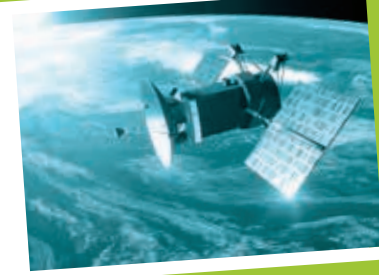

Framework contract to support 3 key groups to policy development for SES

European Commission

Support to the implementation of satellite navigation services

African ACP Countries

Safety and Human Factors assurance in support of Avinor procurement of Remote Towers at 15 airports

Avinor, Norway

ATM/CNS system integration for a new control tower

Jeddah Airport, Saudi Arabia

Safety assessment of ADS-B operations

Eurocontrol and industry manufacturer

Technical support to operational validation on SESAR Trajectory Management

Eurocontrol Maastricht Control Centre

PAVING THE WAY TOWARDS FUTURE ATM
