✈TAV TECHNOLOGIES PROJECT MANAGEMENT OFFICE CONSULTANCY & SERVICES

TAV Technologies Project Management Office (TAV TECHNOLOGIES PMO) is an organizational unit established to centralize and coordinate the management of projects. TAV TECHNOLOGIES PMO applies a consistent project management methodology and standards across the organization based on Project Management Institute A Guide to the Project Management Body of Knowledge (PMBOK® Guide).

The key characteristics of TAV TECHNOLOGIES PMO are strategic and portfolio level planning, prioritization and selection of projects, organizing and coordinating interrelated projects, communicating and building a common language, developing and managing project management policies, processes, procedures, standards and templates, facilitating, monitoring and follow up of projects, mentoring and coaching project managers, project and project manager auditing, evaluation and appraisal.

**“Only a PMO can
improve the
communication
level in a project
portfolio and
give you the
ability to
respond your
customers’
needs
effectively.”**

✈ PMO AS A SERVICE

Our project management experts help you manage and maximize the benefit from your projects. We;

- train, coach, mentor your project managers
- manage your portfolios, programs and projects
- customize or improve your project management methodology
- define KPIs
- create reports for your executive management
- perform health checks and audits
- identify and rescue your troubled projects

✈ BUILD YOUR OWN PMO

With our vast experience and expertise in the field, we also help you establish and sustain your own PMO. By implementing effective best practices, governance and control, we help you enhance your organizational capabilities, improve the performance of your projects, programs and portfolios. Our priority is to meet your needs in order to maximize the return of your investments. We;

- assess your organizational project management maturity level
- create a roadmap for your own PMO
- customize your project management methodology
- implement project management processes
- define project management tools and standards
- further improve project management maturity with mentoring

PMO

✈️ MAKE YOUR PROJECTS MORE VISIBLE, MORE EFFICIENT

Centralized project management capabilities will help your company to identify risks, budget overruns, resource over-allocation and scope changes. A PMO can make your projects' KPIs and progresses more visible to all stakeholders and give your executive management the right information to decide easily on project related issues. We will help you answer the following questions:

- Did you invest in the right projects?
- Which project should you focus on right now?
- Are you managing your resources effectively?
- Are all stakeholders aware of your project portfolio strategy?
- Are you going to deliver your projects on time and within budget?
- Are your stakeholders happy with the quality of your project deliverables?
- Can you easily access all related information about the status and progress of your projects?
- Do all project risks have identified owners and responses?

✈️ STRONG EXPERIENCE IN AVIATION PROJECTS

- Green field Airport projects
- Brown field Airport projects
- Mobile application projects
- Airport management systems projects
- ICT projects
- System integration projects
- Construction IT projects

"A PMO can show you the way to manage your projects and resources efficiently."
